Admissions 2023-24

Institution: New Mexico Institute of Mining and Technology (187967)

User ID: P1879671

Overview

Admissions Overview

Welcome to the IPEDS Admissions (ADM) survey component. The primary purpose of ADM is to collect basic information about the undergraduate selection process for entering first-time, degree/certificate-seeking students in the fall term. This includes information about admissions considerations, admissions yields, and SAT and ACT test scores (if test scores are used in admissions decisions). The ADM survey component is collected only from institutions that do not have an open admissions policy for entering first-time students, which is captured on the IC Header survey component.

Data Reporting Reminders:

- Report data to accurately reflect the time period corresponding with the IPEDS survey component, even if such reporting is seemingly inconsistent with prior-year reporting.
- Institutions that have scores based on the old (2016) SAT score range should convert scores using the [College Board concordance tables](#).
- Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report admissions as of the institution's official fall reporting date or October 15. Institutions operating on an "other academic calendar", a calendar that differs by program, or that enrolls students on a continuous basis (referred to as program reporters) report admissions as students who enroll any time during the period of August 1 through October 31.
- ADM is only applicable to [first-time students](#); DO NOT include other students (i.e., [transfer-in students](#)) in the number of applicants, number of admits, and number (of admitted) that enrolled. Only include levels (full-time, part-time) that you indicated were offered in the IC Header. If you made an error in the IC Header, please call the IPEDS Help Desk.

Changes to reporting:

The following changes were implemented for the 2023-24 data collection period:

- Revised survey materials related to Gender Unknown or Another Gender reporting, including non-reporting for small cell size
- Added a clarification to Instructions regarding reporting test scores
- Added FAQ regarding including incarcerated students in reporting
- Revised FAQ regarding experimental site participants

Resources:

- To download the survey materials for this component: [Survey Materials](#)
- To access your prior year data submission for this component: [Reported Data](#)

If you have questions about completing this survey, please contact the **IPEDS Help Desk at 1-877-225-2568**.

Admissions Considerations

1. Please select the option that best describes how your institution used any of the following data in its undergraduate selection process for the fall 2023 first-time student cohort. (If your institution has changed its admissions considerations for the fall 2024 first-time student cohort, you may indicate such changes in the context box immediately following this section).

Therefore, you should write all context notes using proper grammar (e.g., complete sentences with punctuation) and common language that can be easily understood by students and parents (e.g., spell out acronyms).

NM Tech has resumed its requirement for applications to supply their SAT/ACT test scores for consideration. The requirement had been waived during the COVID pandemic.

Selection Process - A/A/E

2. Provide the number of **first-time, degree/certificate-seeking** undergraduate students who applied, who were admitted, and who enrolled (either full- or part-time) at your institution for Fall 2023. Include **early decision, early action**, and students who began studies during the summer prior to Fall 2023.

Remember that this question applies only to first-time, degree/certificate-seeking undergraduates. Do not include any other students in these totals. Report admitted students who enrolled in the summer ONLY IF they remained enrolled into the fall.

Only include levels that you indicated were offered in the IC Header. If you made an error in the IC Header, please remember to fix the error next year.

- The 'gender unknown' category will be determined by subtracting (men + women + another gender) from the Total.

Is your institution able to report **another gender** for the 2023-24 data collection?

If you indicate 'No, my institution does not collect data on another gender,' leave the cells in the rows for '**Another gender**' blank (i.e., do not report 0). If you indicate 'No, some cells will have a value of less than 5 students,' your institution collects data on another gender, but some cells have a value of less than 5 students, do not report the data and leave the cells in the rows for 'Another gender' blank. If you indicate 'Yes', but no students identified as another gender, please enter '0'.

- Yes
- No, some cells will have a value of less than 5 students (do not report)
- No, my institution does not collect data on another gender

Selection Process - Test Scores

3. Provide data for all students for whom a test score was used in the admissions decision for Fall 2023. Include new students admitted the summer prior to Fall 2023. If you report less than 5 students for any of the scores, do not report percentiles.

Institutions that use test scores for some students report the number of students for whom test scores were used.

Number of enrolled students for whom an <u>SAT</u> score was used in the admissions decision	176
Percent of enrolled students for whom an <u>SAT</u> score was used in the admissions decision	79
Number of enrolled students for whom an <u>ACT</u> score was used in the admissions decision	55
Percent of enrolled students for whom an <u>ACT</u> score was used in the admissions decision	25

Report the scores used in the admission decision, whether test scores are required or are only considered for admission. If you report less than 5 students for any of the scores, do not report percentiles.

Institutions that use test scores for some students report the percentile scores for the students for whom test scores were used.

	<u>25th Percentile</u>	<u>50th Percentile (median)</u>	<u>75th Percentile</u>
SAT Evidence-Based Reading and Writing	500	600	650

Source	Description	Severity	Resolved	Options
Screen: Selection Process - A/A/E				
Screen Entry	The percentage of applicants that were admitted 53.96% is outside the expected range of between 56% and 93% compared against the previous year's value. Please review your data and make any needed corrections or explain the difference. (Error #14512)	Explanation	Yes	
Reason	Our Applicant percentage of nearly 54% is very close to the expected lower value of 56% This data was received from NM Tech's Admission Office.			
Screen Entry	Your institution indicated in the IC Header that it enrolls part-time students, but you did not report enrolling any part-time students on the Selection Process - A/A/E screen of this survey. Please correct your data or explain. (Error #14224)	Explanation	Yes	
Reason	NM Tech does enroll first-time, part-time students; however, we frequently do not have any students in this cohort. The majority of new, first-time student enroll full-time, seeking a bachelor's degree.
