

## **Biology & BioMedical Sciences 101**

Fall 2017

### **Sally Pias, PhD**

Chemistry Department

Lopez Chemistry Building 220; Phone: 835-6204; E-mail: [sally.pias@nmt.edu](mailto:sally.pias@nmt.edu)

### **Snezna Rogelj, PhD**

Biology Department

Jones Annex 315; Phone: 835-5608; E-mail: [snezna.rogelj@nmt.edu](mailto:snezna.rogelj@nmt.edu)

#### **Learning Objectives:**

- To explore many facets of the biological and biomedical sciences
- To evaluate the relevance of these fields to *your* careers and lives.

#### **Approaches to Achieving these Objectives:**

- Informal group discussions
- Web-based presentations by passionate folks in relevant fields
- Invited presentations by NMT professors
- More informal discussions

#### **Student Responsibilities Each Week:**

- Come to class
- Engage in discussions and be an active ingredient
- Bring a printout or a hand-written response with the following:
  - A one-sentence summary of what happened in this class last week
  - Two interesting things you have learned
  - Three questions/thoughts that came to your mind
- Make this class meaningful to YOU
