# WOMEN IN COMPUTER SCIENCE

**Bachelor of Science**

## Join Us in Learning

Want to have fun and learn new computer skills such as hacking?

Join us at our workshops held once a month. We are happy to see new faces, and welcome all women with any level of experience. You do not have to be a computer scientist to join. We would be happy to help you learn about this exciting field.

## Want a Mentor?

Women in Computer Science has a program to help women build the confidence they need to become successful in the field through a mentorship program. The program pairs experienced students and professionals with newer students that will benefit from a knowledgeable individual guiding the development of their schooling.

# WOMEN IN COMPUTER SCIENCE

## Inspiring Greatness

We want to help you succeed in computer science. Women in Computer Science is working to close the gender gap in our field. We promote a more diverse program at New Mexico Tech. We are developing a more diverse work force for the future of our country. Encouraging students today to step up and take on the career that truly inspires them. College presents the perfect opportunity to learn about the field that inspires you to do great things.

## S-STEM Scholarship

Sponsored by the National Science Foundation, the S-STEM program prepares academically talented students to enter the computing workforce or advanced studies in computing. The scholarship provides a stipend to help students pay for college in addition to other benefits such as mentoring. This scholarship is available to students interested in pursuing a career in cybersecurity in either the computer science or information technology fields.
