

NCKRI Seed Grant Review Sheet

Instructions: Please rate projects on a scale of 1-5 with 1 being the lowest and 5 being the highest. Please include notes in the space provided. (Please note that, unless otherwise indicated, comments will be shared with the authors.)

Applicant name: _____

Title of Proposal: _____

	Yes/No	Notes (these will be shared with the authors)
Is the proposed project relevant to cave and karst science?		
Does the project represent new research by the PI and team?		

	Rating (1-5)	Notes (these will be shared with the authors)
Rate the scientific merits of the proposal.		
Rate the potential longevity of the proposed research. (Consider whether data obtained through this seed funding will make the research team competitive for support from other funding agencies in the future.)		
Rate the potential of this proposal for advancing cave and karst science.		
Are the proposal budget and project timeline reasonable?		

Additional comments (will be shared with the authors):

Confidential comments (will not be shared with the authors):

Do you have any suggestions for improving this grant program and proposal review process in the future? (Will not be shared with the authors):
